SECTION B: TERMS OF REFERENCE

Bidders are invited to quote on the procurement of an automatic number plate recognition system (ANPR)

1. **PURPOSE**

2. The Cross-Border Road Transport Agency (C-BRTA) seeks to procure an Automatic Number Plate Recognition System (ANPR).

3. **BACKGROUND**

- 1.1 The Cross-Border Road Transport Agency (C-BRTA) is a Schedule 3A Agency established through the Cross-Border Road Transport Act 4 of 1998 and provides advice, regulation, facilitation, and law enforcement in respect of commercial cross border road transport.

The Act gives the C-BRTA mandate to licence commercial cross border road transport operators by issuing permits to operate. The Act further implores the Agency to eliminate constraints and reduce operational impediments for the Operators.

CBRT Act, No. 4 of 1998 determines that the Road Transport Inspectorate must, from time to time, submit a report to the Regulatory Committee containing the following: -

- a. law enforcement information on a route basis
- b. general information on traffic flows and tendencies; or
- c. any other matters as may be prescribed by the Committee

Section 25 of the Act prohibits any person from undertaking cross-border road transport without a valid permit. When considering an application for a permit, the Regulatory Committee considers:

- Need for the service in the passenger road transport industry to regulate saturation.
- Whether the applicant complies with provisions of the National Road Traffic Act, No. Act 93 of 1996.
- Whether the applicant has a good road transport law enforcement profile.

This includes submission of:

- i. Passenger lists in the case of passenger road transport.
- ii. Consignment notes for freight operators.
- iii. Expired permits as stipulated in section 49 of the Act

The Profiling Services conducts the aforementioned duties.

The C-BRTA is further mandated to enforce the provisions of C-BRT Act, through a joint Law Enforcement function to ensure that:

- Permit holders operate within the parameters of their permit conditions;
- Carriers are monitored through inspections to ensure that they operate within the prescribed legal parameters and initiate prosecution process where there is non-compliance.

In terms of Section 39(2) of the aforementioned act, the Road Transport Inspectorate must from time to time, as determined by the Regulatory Committee and in the prescribed format, submit to the Regulatory Committee a report which contains law enforcement information on route basis, general information on traffic flows and tendencies or any other such matter as prescribed.

1.2 Business requirements

The Profiling Unit is tasked with the oversight / compliance function and is therefore mandated to extrapolate information from various sources (internal / external) about operators, traffic flows and tendencies, including behavioural patterns; and then compile and submit detailed reports to the Regulatory Committee. In essence the Unit is responsible for collecting, capturing and analysing information which is obtained via:

- Joint law enforcement RTMC inspections;
- Cross Easy permit system statistical reports;
- Route profiling;
- Operator profiling;
- Intelligence gathering;
- Analysis of documents; and
- External stakeholders.

1.3 Current challenges

- a. C-BRTA has to focus on 19 commercial borders and other related routes in terms of ensuring compliance with permit requirements. It has been difficult to service most of these borders due to limited staff and resources.
- b. The Agency then procured services of a one (1) double cab vehicle through a lease and bought ANPR system which was fitted on to the vehicle. This vehicle has been instrumental in collecting intelligence that was used for directing and planning for joint law enforcement operations and for referring vehicles detected for permit and other related violations, for prosecution, to law enforcement during joint operations.

Amongst other things the system was able to detect vehicles operating without cross border permits, while some were found operating with expired, cancelled, and fraudulent permits (respectively). Vehicles with warrants of arrest, Natis violations and those suspected of being cloned or stolen were also detected.

- c. However, this one vehicle has not been able to cover most of the borders, let alone service a single border for a continued period. This was mainly because it could not be in many places at the same time especially during the peak times of the year (such as festive and easter period and transport month).
 - d. The current smart car's lease will be ending in July 2022. This means that if no additional car(s) is added, there won't be an instrument used to collect intelligence.
 - e. In order to ensure operator compliance, more vehicles / smart law enforcement devices are required for deploying at different points of interest.
- 1.4 The Agency is located at 350 Witch-Hazel Street, Eco Point Office Park, Block A, Eco Park, Centurion.

4. SCOPE OF WORK

The C-BRTA require the provisioning of an ANPR system fitted on a vehicle.

5. SPECIFICATIONS

The Service Provider shall supply 1 X ANPR system (to be fitted on the vehicle).
